### Info

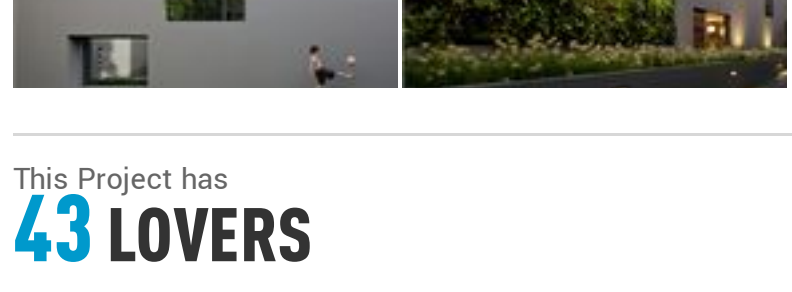

EN - Settled in the middle of the Castilian Landscape, the historical town of Almazán appears strategically on the top of a walled hill, and in the higher point is where the historical remains are surrounded by the piazza, with a strong medieval flavor. Surrounded by extraordinary monumental buildings, the Plaza Mayor de Almazán is shaped as a clear example of "Spanish Square" in the historic city. Its location on top of a watchtower and the edge of a meander of the Duero river, makes it a public ...
